### Notes (2) Lipper Fund Awards

#### General Methodology

#### Criteria (Cumulative)

- Funds registered for sale in the respective country as of the end of the calendar year of the respective evaluation year.
- At least 36 months of performance history as of the end of the calendar year of the respective evaluation year.
- Lipper Global classifications with at least ten distinct portfolios based on the primary share class definition, excluding residual classifications, institutional and other non retail funds, private, closed-end, exchange-traded, insurance and linked funds.
- Asset classes: equity, bond, and mixed-asset, commodity and alternatives. Absolute Return funds screen over all asset types except real estate.

#### Fund Classification Awards

The currency for the calculation corresponds to the currency of the country for which the awards are calculated and relies on monthly data. Classification averages are calculated with all eligible share classes for each eligible classification. The calculation periods extend over 36, 60, and 120 months.

The highest Lipper Leader for Consistent Return (Effective Return) value within each eligible classification determines the fund classification winner over three, five, or ten years. For a detailed explanation please review the Lipper Leaders methodology document on [www.lipperweb.com](http://www.lipperweb.com).

Fund classification awards are given to the company that has the day-to-day responsibility of investing and monitoring the assets under management within the fund's portfolio in order to achieve the investment objectives of the fund. This company is also referred as portfolio management company or investment advisor. The award goes to the fund management company in case that no such company has been appointed or several such companies share the task.
